

# Employment

Newcomers, who form an influential part of the labor market in the EU, can play a key role in economic development.

The employment rates in the EU for people aged 20-64 in 2020

73.5%

for EU citizens and local people

61.9%

of those born outside the EU

## EU supports projects that aim to

Facilitate access to employment opportunities for newcomers

Provide financial support in the early phases of integration

Encourage newcomers to participate in the labor market

Inform newcomers about economic opportunities

**Welcome Application** was developed as part of the **Orient8 social mentoring project**. This application also includes employment and financial services categories that enable newcomers to be aware of economic opportunities.
